

AMAZON PROJECT

Present by Saransh Garg

INTRODUCTION

Amazon started as an online bookstore in 1994 and has grown into one of the largest e-commerce platforms globally. Beyond retail, it offers cloud computing services through AWS, streaming via Prime Video, and smart devices like Alexa. Amazon's customer-centric approach, vast product selection, and fast delivery have set industry standards. However, it's also faced criticism for labor practices and its impact on smaller businesses. Despite challenges, Amazon continues to innovate and expand its influence across various sectors.

PROBLEM STATEMENT

1. List all products with a discounted price below ₹500.
2. Find products with a discount percentage of 50% or more.
3. Retrieve all products where the name contains the word "Cable."
4. Display the difference between the average of the actual price and the discounted price for each product.
5. Query reviews that mention "fast charging" in their content.
6. Identify products with a discount percentage between 20% and 40%.
7. Find products that have an actual price above ₹1,000 and are rated 4 stars or above.
8. Find products where the discounted price ends with a 9
9. Display review contents that contains words like worst, waste, poor, or not good.
10. List all products where the category includes "Accessories."
